## TO THE DIRECTOR

This upbeat, catchy samba was inspired by the music of Brazil and the jazz group, Spyro Gyra. There are plenty of exciting moments built in, so don't be tempted to play it too fast, as it should be relaxed and not frantic. Some of the unusual aspects of this chart are the built in key changes and the extended form.

After the introduction, the ostinato played by the guitar and piano should be very smooth and legato. The unison melody is to be played light and precise. Always adhere to the marked articulations, and over-exaggerate the dynamics. Notice the subito mp and crescendo at the end of measures 60 and 168.

On the montuno sections, all the musicians that aren't playing should shout out randomly to simulate a Brazilian Carnival.

Although there are written solos for tenor saxophone and trumpet, encourage the soloists to learn the chords and improvise. Any instrument can solo or trade over the vamp at measure 221. Make sure your pianist is ready for the solo montuno at measure 213, and plays it short and rhythmically precise.

Finally, cut off the last note in time. If everyone plays rhythmically throughout and has fun, this chart will definitely be a hit!

SoloMate recordings are available at [kendormusic.com](http://kendormusic.com) for new Kendor and Doug Beach releases. This innovative resource lets students practice their solos by downloading professionally-recorded rhythm section accompaniment tracks. A full recording of this chart can be downloaded at [www.kendormusic.com](http://www.kendormusic.com).
