## TO THE DIRECTOR

This chart is vaguely reminiscent of what has been called the "ECM style." As such, the approach is more of a classical sound concept, especially in the brass section. Strive for a warm, dark sound overall. Don't overplay the unisons, and work to achieve a good balance and blend throughout, with a legato approach to the general phrasing.

The rhythm section should interpret this composition with a light feel and not play aggressively except in sections that suggest it. The piano and bass parts are thoroughly notated but can be more freely interpreted by more experienced players.

There are a few clear arrival points (or apexes) throughout and care should be taken to avoid getting too loud, too quickly en route to these goals. With this in mind, a clear emotional contour reflecting the chart's peaks and valleys must be one of the primary performance goals.

SoloMate recordings are available at [kendormusic.com](http://kendormusic.com) for new Kendor and Doug Beach releases. This innovative resource lets students practice their solos by downloading professionally-recorded rhythm section accompaniment tracks. A full recording of this chart can be downloaded at [www.kendormusic.com](http://www.kendormusic.com).
